

Andhra Pradesh's Guntur launches DCCC to monitor sanitation activities

To oversee hygiene and sanitation activities during the statewide Jagananna Swachha Sankalpam (JSS) programme that aims to make every Gram Panchayat Open Defecation Free (ODF) Plus, the district administration of Guntur in Andhra Pradesh has set up a District Command Control Center (DCCC).

To commence on 8th July 2021, Jagananna Swachha Sankalpam is a 100-day scheme to transform all the Gram Panchayats of Andhra Pradesh into litter free, garbage free and visually clean villages.

The DCCC was launched on 2nd July 2021 during a zoom conference by the Joint Collector, Village and Ward Secretariat and Development (VWS&D). Among those who participated in the event were CEO-Zilla Parishad, DPRC District Coordinator, DPO, Deputy CEO Zilla Parishad, and a specially appointed gazette officer who will take charge of the Command Center.

Also, more than 650 officials and public representative comprising on Mandal Parishad Development Officers, Extension Officers (PR&RD), Panchayat Secretaries from across the district attended the meeting.

The motto of the programme is 'Zero Waste Gram Panchayat-Zero Waste Guntur District.'

The DCCC has also set up a 24X7 helpline number (9989119987) which has been conveyed to all the Gram Panchayats (GPs). Sanitation complaints received from GPs will be resolved within 48 hours and the relevant information will be sent to the petitioner.

Meanwhile, the Zilla Praja Parishad Guntur will be promoting IEC activities in all Mandals. This would involve awareness programmes in all villages and door to door campaigns to promote solid waste management. In this regard, Mandal level officers, panchayat secretaries, sarpanches and other public representatives in the district have set up MOU with ITC and other such organizations to tap CSR funds.

Addressing the virtual meeting, the Joint Collector informed them about the process of garbage collection from house to house in every GP. Collected garbage will be moved to the Solid waste processing centre (SWPC) sheds where the wet waste will be converted into compost and the dry waste sold to junk dealers, both providing some income to the GPs.

Ahead of the commencement of JSS, all Mandal and village level officials were directed to prepare a 100-day action plan and make all efforts to convert each GP into ODF Plus and the whole of Guntur district into an ODF Plus district. The DCCC's WhatsApp number was shared to ensure that all sanitation work will be done efficiently.
